

PRICES RUINED AND PROFITS WRECKED!

Here's a sale for you to glory in—one that you know to be true, because the evidence is right at hand for proof. The Union Clothing Company, with a branch in Kansas City, has closed out its entire stock, and we were the purchasers. The price paid did not average above 40 cents on the dollar; we pass the goods along to you at just a fair 10 per cent advance on buying price. It's a rich hit—a gold mine of saving—a mecca for prudent, economical buyers. A sale without a precedent—far-reaching and all-pervading. Cutting down the prices on every article in our stock to meet the exigency of disposing of so mammoth a stock in so very short a time as that still left to us.

Come On! Come On! Come On! One and All!

And gladden your eyes with glimpses of the greatest money-saving movement retail clothing circles have ever seen. Low as the prices are, don't pass judgment on a single, solitary article until you've seen it. There'll be wide-spread enthusiasm when once the real significance of this sale is thoroughly understood and appreciated.
